

Please do not allow the translator stations to be removed. Our community has benefited greatly by a national radio station called KLOVE. They offer Christian music and encouragement to hundreds of cities across the nation. This station provides encouragement for my family and for hundred of folks at our church. Oklahoma City has had a number of local Christian stations but they cannot keep up with the cost of business. Neither can they provde the quality that KLOVE has given to the community. We have seen a decrease in violent crime in Oklahoma City over the past few years and I believe it is due to the influence of KLOVE Radio.
